

## Construction Law & Practice – 2011 Intake Indicative Study Schedule

There is no face to face delivery on the course. All reference to “sessions” below is to synchronous internet sessions facilitated through Elluminate Live.

It is intended that the internet based synchronous sessions will take place on Wednesday evenings at 7pm UK time for all taught modules. Different arrangements may be implemented for the research phase, particularly the MSc Dissertation module.

Please note:

Though we offer an elective for module 3, institutional demands require quite a large minimum cohort size. Therefore, whilst we are confident that the Dispute Resolution module will run, we are less confident that either of the other two electives will run.
